

# MY LOOSE TOOTH

*Kavya Tangella (6 years)*

On Saturday Jan 7th I went to a party in New Jersey called the "Festival of Joy". I had a loose tooth. My tooth was almost falling off. First it was hanging. Then my mom twisted it and it came out. It did not hurt, when she twisted it. I was very happy that I lost my tooth. My mom pulled it out because when I was eating my lunch it was wiggling a lot and I could not eat. I got a little blood. I rinsed my mouth with water and I was fine. I put my tooth under my pillow that night. Next morning my tooth was gone. The tooth fairy took my tooth and left 2 gold coins for me. I was very happy. Last week I lost another tooth and got 2 more gold coins. I am so happy now since I have another wiggly tooth.
